Learn Boat Engine Maintenance in Port Hadlock

Washington Sea Grant (WSG), Jefferson County Extension, Jefferson Education Center and the Northwest School of Wooden Boatbuilding are co-sponsoring a four-evening Boat Engine Troubleshooting and Maintenance Workshop in May for commercial fishermen and recreational boaters.

Participants will learn how to troubleshoot the fuel, electrical, cooling, exhaust and drive systems of diesel and gas inboards, stern drives and outboards (two-cycle and four-stroke) and receive instruction in proper maintenance techniques to help prevent the most common problems.

The four workshop sessions are scheduled for **May 3, 6, 10 and 13**, 6-9 p.m., at the Northwest School of Wooden Boatbuilding, 42 N. Water St., Port Hadlock (across from the Ajax Café). The fee is \$100. Space is limited, so pre-registration is advised.

To register or for more information, contact WSG Marine Education Coordinator Sarah Fiskén, (206) 543-1225, or Jefferson Education Center Director Matt Lyons, 360-379-4034.

Based at the University of Washington, Washington Sea Grant provides statewide marine research, outreach, and education services. The National Sea Grant College Program is part of the National Oceanic and Atmospheric Administration (NOAA), U.S. Department of Commerce. <http://www.wsg.washington.edu/>
