Learn about Diesel Boat Engine Troubleshooting

Washington Sea Grant and the Port of Seattle Fishermen's Terminal are cosponsoring an all-day workshop on Diesel Engine Troubleshooting.

The workshop will offer insights into troubleshooting of electrical, fuel, cooling, and exhaust systems, provide an overview of the mechanical makeup of the engine, include instruction on oil analysis, and more.

When: Saturday, May 16
9 a.m -6 p.m.

Where: Nordby Conference Room, Nordby Bldg.
Fishermen's Terminal, Seattle

The fee is \$60. To register or for more information, contact Sarah Fiskin, Washington Sea Grant Marine Education Coordinator, at 2060543-1225 or sfiskin@u.washington.edu

Based at the University of Washington, Washington Sea Grant supports marine research and education and works with communities and businesses to manage and protect marine resources.
