### **Learn to Troubleshoot and Maintain Your Outboard Engine**

Washington Sea Grant, Jefferson Education Association, Northwest School of Wooden Boatbuilding and Jefferson County Extension are cosponsoring a workshop in Port Hadlock on Outboard Engine Troubleshooting and Maintenance.

Designed for commercial fishermen and recreational boaters, the workshop will teach participants how to troubleshoot problems in the fuel, lubrication, electrical, cooling, exhaust and drive systems, as well as proper maintenance techniques to prevent the most common problems. The class will focus on two-cycle and four-stroke gas outboards of less than 50-horsepower. Both a two-cycle and four-stroke engine will be available as training aids during the class. The fee is \$60.

When: Saturday, April 25  
9a.m.-6p.m.

Where: Northwest School of Wooden Boatbuilding  
42 Water Street (across from the Ajax café)  
Port Hadlock

To register or for more information, contact Sarah Fisken at 206-543-1225 or [sfisken@u.washington.edu](mailto:sfisken@u.washington.edu), or Matt Lyons at 360-379-4034.

*Based at the University of Washington, Washington Sea Grant supports marine research and education and works with communities and businesses to manage and protect marine resources.*
